
Call for Papers
Annals of Operations Research

Special Volume on Stochastic Models and Algorithms

Dedicated to the 60th birthday of Professor Eugene A. Feinberg

The *Annals of Operations Research* seeks submissions for a special volume on *Modern Applied Probability Models and Methods*, dedicated to the 60th birthday of Professor Eugene A. Feinberg.

The deadline for submission is March 25, 2015.

The main topics of interest are:

Markovian Decision Processes
Inventory Theory
Queueing Theory
Machine Learning
Maintenance Design and Scheduling
Stochastic Optimization

This call is open to participants of the Third Rutgers Applied Probability Conference, that was held on June 6-7, 2014, at Rutgers, and to other researchers whose work is within the scope of the volume.

Instructions for authors:

Authors should submit a cover letter and a manuscript by March 25, 2015, via the Journal's online submission site at: <http://anor.edmgr.com>

Be sure to select the article type "SI:Feinberg:Probability" and note that your work is intended for the special issue.

Papers will be subject to a strict review process managed by the Guest Editors and accepted papers will be published online individually, before print publication.

Manuscripts submitted after the March 25, 2015, deadline may not be considered for the special volume.
