

Eek! I HATE touching that disgusting lipid! Don't let go!

Me too! I really admire those aminoacids that can interface with both aqueous and lipid layers!

Gasp Gulp

This 'snorkelling' can be a bit of a strain!

Easy-peasy! It just comes natural to us.

Personally, I prefer it down here!

Hi, Al.

Hi, Leu.

Lovely hydrocarbon chains.

LIPID BILAYER

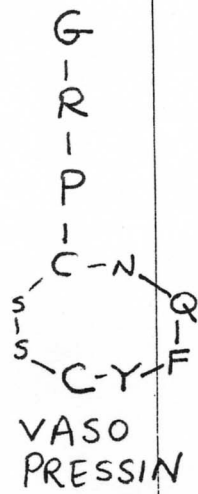

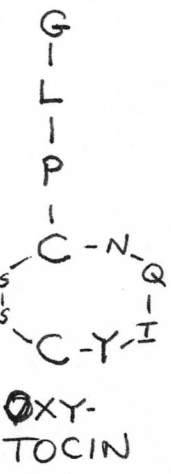

Trrrp (Croak)

Arg!

Are we inside the cell or outside?

Dunno- just hydrophilic I guess.

I just hope that elephant up there doesn't get nervous!
