Pre-Waiver Form

In order to ensure the preservation of the character, tradition and beauty of the University campuses, parking space on campus is both scarce and extremely limited. Rutgers discourages students from bringing cars to the New Brunswick campuses. Motor vehicles contribute to air pollution and in a small community like the New Brunswick area, large numbers of them cause severe levels of traffic congestion. The University and the City of New Brunswick are urbanized and compact, with almost all locations accessible by walking, by bus, bicycle, or a combination of these travel modes.

The rules and regulations of the Parking and Transportation Department are accordingly strictly enforced. There are virtually no exceptions to these regulations. However, the Parking and Transportation Department wants to accommodate students with severe financial hardship or medical conditions which create extenuating circumstances.

Please review the following to determine whether you should consider applying for a Restriction Waiver. Should you determine that it is worthy of your time to apply, please note that few applications are accepted. The Registration Department determines whether the student’s request exhibits the extenuating requirements that will permit us to waive the parking restriction.

☐ As a student, are you financially independent? Do you pay all your own major bills on an ongoing basis such as car/life insurance, medical bills, and/or car loan/lease payments? Documentation must be submitted and will be reviewed to determine that your parents do not support you.

☐ Do you have a physical or mental disability that requires the use of a car on or off campus as prescribed by a doctor?

If you can answer yes to one of these questions and would like to submit an application, please print and sign that you have read and understood this information and bring it to Parking and Transportation Services to receive a Restriction Waiver form. Please note that even if you can answer yes to these questions, your application is still subject to the review and judgment of the Registration Department.
